

We have specialized in insuring golf courses and country clubs since 1985. Our products are available to qualifying courses in several states. Our partnership with EPIC means better service, greater flexibility, and broader coverages at very competitive rates.

We understand the complexities of insuring your golf course or country club. No two courses are the same, so why should the insurance be the same? We don't write generic policies, instead, each policy is custom tailored to your specific exposures and unique features that make your course different.
